Best Practice for Energy

This important one-day seminar will provide delegates with an in depth analysis of best practice in energy management. Delegates will learn about how to apply their data and how to report best practice. Attendees will also be given a detailed understanding of best practice in procurement, both in terms of risk management and the market.

This seminar is aimed at senior and middle managers who are responsible for energy management within your companies. The event will show you best practice for energy management.

Speakers

Isa Cole, LG Energy

Isa is an experienced Project Manager having had roles within the financial sector and the public sector. Isa has over twelve years' experience within the energy industry, starting his energy career with the supplier Eon as a Business Analyst dealing with the payment infrastructure between different suppliers. After several years with Eon, Isa moved to the energy broker with the largest market share as a Business Analyst and then changed roles to a Strategic Account Manager. His portfolio included NHS Trusts, housing associations, familiar retail chains and assorted manufacturing customers. Isa was personally responsible for the procurement of these customers with a collective energy spend of over £100 million per annum. Isa joined LGE early in 2012 in order to manage the Account Management team and to personally manage LGE's key strategic customers on Flex strategies.

Rebecca Darlington, LG Energy

Rebecca is an experienced and talented Reporting Analyst with a flair for creating bespoke reports to aid the process of improving accuracy and ease of reporting. Rebecca is excellent at interpreting and managing data, and responding proactively to problems which arise, in a timely and professional manner thinking critically and checking for errors.

Dave Loveday, LG Energy

Dave is a tenacious and conscientious Energy Manager with over 20 years proven experience working in both wholesale and retail sectors of the UK electricity, gas and emissions markets. He has worked with several large commercial organisations to optimise their procurement strategies for energy whilst mitigating the inherent market risks. His role as Head of Trading and Risk at LGE is to ensure that client positions are effectively managed, being cognizant of a client's budgetary aspirations and risk capacity. The function of LGE's trading desk is to hedge a client's exposure to energy markets in a prudent manner.

Asif Rizvi, LG Energy

Asif has an academic background in Environmental Management/Engineering. He began his career in Environmental Research in the Higher Education Sector, where he was involved in Environmental Awareness Raising and Sustainability research. In 2004 Asif moved into the Environmental Consultancy sector, working for Scientifics Limited as the National Account Manager, Asif managed Scientifics' core business in the rail sector.

Asif joined a large energy consultancy in 2007 and specialised in Utility Consultancy and Energy Procurement solutions. Here, Asif contributed significantly to business development and growth. Asif was appointed Managing Director of LGE in 2011; he now has responsibility for the P&L and general management of LGE.

Raymond Yeng, LG Energy

Raymond was brought in to LGE as our Head of Consultancy, bringing with him a wealth of experience and qualifications. Raymond is a qualified lead assessor for ESOS, as well as being a chartered engineer.

Raymond is an articulate and highly motivated Energy Manager/Engineer, with direct experience as an end-user and as a service provider. His specialisms include renewables power generation, development of low carbon strategies and carbon reduction programmes, project management, the Carbon Reduction Commitment and Climate Change Agreement compliance/strategy and performance related energy contract management. The Carbon Trust have used Raymond to act as guest speaker at their events.

Discounted Parking is available for all attendees at the NCP Car Park on Chorlton Street, a two minute walk away from the venue for this event.

Delegates should bring their car parking tickets to reception at City Tower where reception will validate the ticket
