

CCA Timeframe 2025 – 2033

	2024	2025	2026	2027	2028	2029	2030	2031	2032	2033
Target Period (TP)		TP6	New TP1	New TP2	New TP2	New TP3				
Certification Period (CP)	CP6: 1/7/23 - 30/6/25	CP7: 1/7/25 - 30/6/27	CP1: 1/7/27 - 30/6/29	CP2: 1/7/29 - 30/6/31	CP3: 1/7/31 - 31/3/33					

January 2026 is the start of the first Target Period of the new scheme. Target Period 1 is 12 months (2026), Target Period 2 and 3 are 24 months.

The reporting of performance (energy and production data) will be used to determine if targets have been met, the Environment Agency require reporting by 1 May in the year following the end of each Target Period, with Carbon Buy-out fee payments due by 1 July.

To allow sufficient time for processing the BPF will set a reporting deadline by early March following the end of the target period

The certification period relates to the entitlement to a discount on the Climate Change Levy (CCL) charge on the energy bills, for example an operator who meets the TP1 (2026) target or pays the buy-out fee will be recertified for a reduced CCL charge from 1 July 2027 to 30 June 2029.
