Presentations from

# BPF Health and Safety Seminar

The 2018 BPF Health and Safety Seminar has been designed to provide plastics companies with a detailed exploration of H & S issues that affect our industry. Presentations at the event will examine relevant topics including stress signs, dangers from leaks and dust control.

The BPF has been able to secure a host of expert speakers who will guide you through the seminar. This event is your opportunity to network with your peers and to listen to insightful presentations.

**Who should attend:** This seminar is aimed at senior and middle managers from companies in the plastics industry who are responsible for health and safety within their organisation.

## Seminar Programme

### Morning Session

|       |                                                                                                                                               |

| 15.20 | Afternoon Break and Close                                                                                                |

## Speakers

v

### Alan Brown

*RPC*

Alan is an engineer by trade, and has been married for 39 years with four grown-up children. He has worked in the plastics industry for almost 30 years in total and has been a member of the IHSC for approximately 5 years. He has been chairman of the BPF Health and Safety Committee since September 2015.

v

### Dr Sara Cammarano

*British Plastics Federation*

Sara is a Material engineer with a PhD in polymer science and a specialization in rheology.

After her degree in Material engineering, Sara worked as a researcher for the Italian national council before working for Imerys as polymer scientist first, then as EMEA Sales manager for Imerys adhesive and sealant division.

Sara has been working for the BPF for just over four years and currently hold the position of senior industrial issues executive responsible for H&S, Moulders and specialist processors, rotational moulders and composites group.

v

### Nigel Heaton

*Human Applications*

Nigel is a Chartered Member of both the Institution of Occupational Safety and Health and the Chartered Institute of Ergonomics and Human Factors. He works for Human Applications, a risk management consultancy specialising in the provision of consultancy, audit and training to large organisations worldwide.

Nigel has been engaged by a wide range of companies to help them on their journey to improve their health, safety and well-being performance. He has worked with the Boards and senior management teams of organisations such as DHL, the Home Office, Howdens, etc. He has also worked with companies such as Amazon EU, Highways England, and bodies such as the Houses of Parliament, the Ministry of Defence, etc. on delivering leadership training that allows leaders to understand how to deliver more effective health, safety and well-being.
